Discussion	1- 4
Stocks of leaf tobacco, by types and groups of grades	5-12
Stocks of Burley tobacco, by groups and qualities	13
Production, stocks, supply, disappearance, and price, of specified types (FARM-SALES-WEIGHT)	14
Stocks of leaf tobacco, by types, showing separately quantities owned by dealers and manufacturers	15
Conversion factors for adjusting for losses in weight	16
Stocks of leaf tobacco, by types, converted to a FARM-SALES-WEIGHT equivalent	17
Stocks of leaf tobacco, summary by types	18

EXPLANATION OF GROUP SYMBOLS

GROUPS OF TYPES 11, 12, 13, and 14:
- A-Wrappers
- B-Leaf and smoking leaf
- C-Cutters
- X-Lugs and primings
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 21, 22, 23, and 24:
- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 31:
- A-Wrappers
- B-Bright leaf, red leaf, and tips
- C-Lugs and cutters
- X-Trash and flyings
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 32:
- B-Heavy leaf or dull crop
- C-Thin leaf or bright crop
- X-Seconds and ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 35, 36, and 37:
- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 41:
- B-Binders or tops
- C-Fillers (farm wrappers)
- X-Stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 42, 43, and 44:
- C-Fillers (farm wrappers)
- X-Stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 46:
- C-Superior
- X-Inferior
- Y-Defectuoso
- S-Scrap (Picadura)
- N-Nondescript

GROUPS OF TYPES 51, 52, and 53:
- A-Wrappers
- B-Binders, seconds, and brokes
- C-Fillers and short darks
- X-Stemming grades
- Y-Sand-leaf fillers or ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 54 and 55:
- B-Binders
- C-Fillers
- X-Stemming grades
- Y-Sand-leaf fillers or bottom leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 56:
- B-Binders
- C-Fillers
- X-Stemming grades
- Y-Ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 61 and 62:
- A-Wrappers
- B-Stout Wrappers and binders
- C-Fillers or tips
- X-Filler brokes
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 81, 82, and 83:
- A-Wrappers
- C-Fillers
- S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS

Total Leaf Stocks Show Increase Over Last January 1.

Stocks of all types [1] of leaf tobacco owned by dealers and manufacturers in the United States and Puerto Rico on January 1, 1946, [2] totaled 2,810,037,000 pounds, 6.6 percent above stocks on January 1 of the preceding year when there were 2,636,251,000 pounds. Larger flue-cured and burley stocks accounted for the major portion of this increase.

About 1,435 million pounds of the 1945 crop had entered stocks up to the end of the calendar year, or 70 percent of the estimated production of 2,041.8 million pounds. Around 755 million pounds entered stocks in the October 1 to January 1 period.

Total flue-cured, Burley and Maryland stocks were 8.7 percent above January 1, 1945, and the highest level since 1943 for January 1. In the dark tobaccos, fire-cured stocks declined to the lowest level on record for this quarter, but dark air-cured stocks changed only slightly in comparison with January 1, 1945. In the cigar leaf types, binder and shade-grown stocks showed only small changes from a year ago while filler stocks were higher due mainly to the larger supply of Puerto Rican.

Holdings of the Commodity Credit Corporation on January 1, 1946, were reported as 209 million pounds. All but about 600,000 pounds of these stocks consisted of flue-cured. On January 1 last year CCC stocks totaled 287 million pounds.

Stocks reported as owned by dealers on January 1, 1946, were 325,430,000 pounds or 11.6 percent of the total January 1 holdings, whereas manufacturers' stocks amounted to 2,484,607,000 pounds or 88.4 percent of the total reported.

1/ Figures quoted for type totals in this summary are the sums of unstemmed and stemmed leaf, as reported. Tables in the body of the report show stocks in detail, subdivided according to recognized groupings; stocks on a farm-sales-weight basis; and stocks owned by dealers and manufacturers, separately.

2/ The general instructions for filing the tobacco stocks reports, required of dealers and manufacturers by the United States Department of Agriculture, specify that the report shall be made as of the opening of business on the first day of each quarter.

CIGARETTE-LEAF STOCKS

Larger Stocks For all Cigarette Types

Flue-cured holdings were 2.3 percent larger than on last January 1. Stocks totaled 1,496,895,000 pounds as compared with 1,463,498,000 held at the beginning of 1945. Sales of the 1945 flue-cured crop between October 1 and January 1 brought around 470 million pounds into stocks. Reported holdings showed an increase over the previous quarter of 241 million pounds. Of the 1945 crop, estimated at 1,175 million pounds, only a very small portion remained to be marketed after January 1, 1946.

Burley stocks were reported as 731,158,000 pounds, an increase of 24 percent over January 1, 1945, and the highest level for this quarter since 1942. The Burley auction markets opened early in December and around 235 million pounds or approximately 40 percent of the crop was marketed before January 1. About 160 million pounds were sold in this period during the previous marketing season. Reported holdings were up 88 million pounds from October 1, 1945. Stocks of Maryland tobacco were reported on January 1, 1946 as 40,980,000 pounds which was around 20 percent or about 7 million pounds above holdings a year earlier. A very small quantity entered stocks during the fourth quarter through sales on the Baltimore hogshead market.

Holdings of foreign-grown cigarette and smoking tobacco (Turkish and other) were 18½ million pounds over January 1, 1945. Stocks were reported as 74,576,000 pounds as compared with 56,025,000 on the same date last year. The total reported, however, changed very little in comparison with October 1, 1945.

SNUFF AND CHEWING-LEAF STOCKS (DARK TOBACCO)

Fire-cured Stocks at Low Level; Dark Air-cured Holdings Unchanged

Fire-cured tobacco stocks were 30 percent below last year and at the lowest level on record for January 1. Holdings reported by dealers and manufacturers totaled 107,131,000 pounds while stocks on January 1, 1945, amounted to 154,108,000 pounds. The Virginia fire-cured markets opened in December and about 3 million pounds were sold before January 1. This represented all the fire-cured tobacco from the 1945 crop which entered stocks during the fourth quarter. The Type 22 and 23 markets did not open until January. Fire-cured stocks decreased 16½ million pounds between October 1 and January 1. Of the total fire-cured stocks reported, 19,383,000 pounds were of the Virginia type, 68,418,000 of Eastern District, 19,251,000 of Western District and 79,000 of Henderson Stemming.

Dark air-cured stocks on January 1, 1946, totaled 53,401,000 pounds which was almost the same as reported a year ago. Sales before January 1, on the dark air-cured markets which opened late in November and early December, amounted to approximately 11½ million pounds or around 24 percent of the estimated 1945 crop. One Sucker stocks were 27,536,000 pounds, Green River 22,833,000 pounds, and Virginia sun-cured 3,032,000 pounds.

CIGAR-LEAF STOCKS

Filler Stocks Larger Than Year Ago; Binder and Shade-Grown Holdings Show Only Slight Change; Cuban Stocks Greater

Cigar-filler stocks of the domestic types including Puerto Rican in the United States and on the Island amounted to 157,948,000 pounds which is an increase of 17.7 million pounds over January 1, 1945. Most of this increase was in Puerto Rican stocks which were at the highest level on record and 18 million pounds above a year ago. Pennsylvania Seedleaf stocks were reported as 82,899,000 pounds, Gebhardt as 13,695,000, Zimmer as 8,409,000, Dutch as 3,631,000 and Puerto Rican as 27,184,000 in the continental United States and 22,130,000 pounds on the Island. The Government freeze orders prohibiting sales of the 1945 crop for types 41 to 44 were not lifted until January 9 and none of the new crop entered stocks during the fourth quarter.

Cigar binder stocks were reported as 100,556,000 pounds of which 26,028,000 were Connecticut Broadleaf, 23,025,000 Connecticut Havana Seed, 2,602,000 New York and Pennsylvania Havana Seed, 25,080,000 Southern Wisconsin, 23,577,000 Northern Wisconsin, and 244,000 pounds Georgia and Florida sun-grown. The bulk of the 1945 crops of Types 51 and 52 entered stocks before January 1. Part of the crop in other binder types was delivered before January 1. Total cigar binder stocks were 6 million pounds above the October 1 figure.

Stocks of shade-grown leaf on January 1, 1946, totaled 18,408,000 pounds, about the same quantity reported a year earlier. Of this total, 12,559,000 pounds consisted of Connecticut shade, and 5,849,000 pounds of Georgia and Florida shade. Type 61 stocks showed an increase over the October 1 holdings as the major portion of this type enters stocks during the fourth quarter. Deliveries of Georgia and Florida shade are made in the third quarter.

Foreign grown cigar leaf stocks totaled 27,244,000 pounds on January 1, 1946. Cuban stocks increased 4.2 million pounds over October 1 and was the only one of the separate foreign types which showed an increase over the previous quarter. Stocks of Cuba (Havana) were 24,818,000 pounds, Sumatra and Java 2,187,000 pounds, Philippine Islands (Manila) 26,000 pounds, and other foreign grown cigar leaf 213,000 pounds.

NOTE

The table on disappearance by types is shown in the quarterly Tobacco Stocks Reports at the end of respective marketing years as follows:

January 1

Maryland, Type 32
Puerto Rican, Type 46

April 1

None

July 1

Flue-cured, Types 11-14
Georgia and Florida sun-grown, Type 56
Georgia and Florida shade, Type 62

October 1

Fire-cured, Types 21-24
Dark air-cured, Types 35-37
Burley, Type 31
Cigar-filler, Types 41-44
Cigar-binder, Types 51-55
Connecticut shade, Type 61

Table 1.-Stocks of leaf tobacco, by types and groups of grades, owned by dealers and manufacturers, January 1, 1946, compared with October 1, 1945 (REPORTED WEIGHT).

1/ Subject to revision.

2/ See supplementary Burley report on page 13.

3/ Most of the stocks in the X and Y groups will go into scrap chewing manufacture as well as part of that included in the scrap group.

4/ Includes Puerto Rican on the Island, Type 46.

5/ Type 84 - Other foreign-grown all shown in the C group.

6/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

7/ Does not include stocks owned by Netherlands Indies Produce Corporation held in the free trade zone.

* Revisions in October 1 report.

1945	4/ 20.0	2/ 68.1	4/ 88.1		

1/ Annual disappearance for a given type is calculated for the marketing year established for that type, the year beginning at the quarterly reporting date on which stocks of the type are at their lowest point, and before the new crop enters stocks. Marketing years vary for different types, and for the types covered in this table a January-December year is in effect, and stocks are as of January 1 of the year following production, and disappearance beginning January 1 of year following production. Disappearance is calculated as follows: Production for any given year, for example 1944, plus stocks on January 1, 1945, equals total available supply for the year beginning January 1, 1945. This supply figure minus stocks on hand on January 1 of the following year (January 1, 1946) equals the disappearance for the year, or from January 1, 1945 to December 31, 1945

2/ Subject to revision.

3/ December 1 estimate.

4/ Preliminary.

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis. Figures are as reported to date; no revisions of this table will be made.

2/ The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown in the manufacturers' column also include stocks purchased under agreement with the Commodity Credit Corporation which are earmarked for export and are not actually available to manufacturers; these stocks are reported as approximately 209 million pounds, 208 million of which consist of flue-cured. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. The table should therefore be considered as representing only the approximate quantities owned respectively by dealers and manufacturers.

3/ Includes stocks on the Island of Puerto Rico.

4/ For explanation of stocks included in this classification see footnote 6 on page 12.

5/ Does not include stocks owned by Netherlands Indies Produce Corporation held in the free trade zone.

Table 5. - Conversion factors for adjusting for losses in weight incident to stemming, handling, sweating, and drying, all types of tobacco.

Type	U.S. type number	Factors to multiply by to convert weights	
		Stemmed stocks to unstemmed equivalent	Unstemmed stocks to farm-sales weight
Flue-cured	11-14	1.282	1.12
Virginia fire-cured	21	1.299	1.18
Eastern District fire-cured	22	1.316	1.04
Western District fire-cured	23	1.316	1.04
Henderson Stemming	24	1.316	1.125
Burley	31	1.351	1/ 1.12
Southern Maryland	32	1.351	1.02
One Sucker	35	1.429	1.09
Green River	36	1.316	1.13
Virginia sun-cured	37	1.316	1.13
Pennsylvania Seedleaf	41	1.387	1.11
Gebhardt	42	1.370	1.12
Zimmer	43	1.401	1.13
Dutch	44	1.418	1.115
Puerto Rican	46	1.275	1.17
Connecticut Broadleaf	51	1.292	1.07
Connecticut Havana Seed	52	1.299	1.07
New York and Pennsylvania Havana Seed	53	1.364	1.135
Southern Wisconsin	54	1.300	1.06
Northern Wisconsin	55	1.333	1.085
Georgia and Florida sun-grown	56	1.275	1.245
Connecticut Shade-grown	61	1.224	1.135
Georgia and Florida shade-grown	62	1.205	1.16
Miscellaneous Domestic	71-73	2/ 1.333	2/ 1.09
Foreign-grown cigar-leaf	81-84	2/ 1.205	3/
Foreign-grown cigarette and smoking tobacco	90	2/ 1.205	3/

1/ Effective April 1945, factor changed from 1.11 to 1.12 to take into account higher redrying losses.
2/ Tentative factor
3/ Factor has not been established.
